## **6.0. CRUSHED STONE SAND (CS-Sand)**

- The time has come to use Crushed Stone Sand as an alternative to the natural river sand. By using Crushed Stone Sand (CS Sand), the precious river sand available in the river beds can be conserved and also the environment is protected. As per Bureau of Indian Standards, this sand is named as "CS Sand". Further the 'CS Sand' is commercially called in market as 'M-Sand'
- For the construction purposes, as an alternate to River Sand, the Government have decided and recommended to use Crushed Stone Sand manufactured by way of using good quality strong stones crushed with proper machinery and complying with all the requirements as stipulated by relevant codes of Bureau of Indian Standards.
- The Government issued awareness pamphlets on Crushed Stone Sand for the use of public and builders stating

correct manufacturing process of quality CS Sand, simple site tests to be conducted and Laboratories that conduct the quality tests. Moreover, short film on CS Sand awareness was also released in Theatres by the Government.

- The Public Works Department issued circulars emphasizing importance of the use of CS Sand in detail.
- The expert committee consisting of members from Public Works Department, Indian Institute of Technology (IIT), Anna University, Structural Engineering Research Center (SERC), Indian Builders Association and Chief Engineers of various other Government Departments is approving the quality of Crushed Stone Sand manufacturing units after receipt of report of the site inspection and test results of the Crushed Stone Sand in the Government Certified Laboratories.
