ORDER:

The Project Director, Tamil Nadu Health System Reform Program has informed that Tamil Nadu Health System Reform Program is a World Bank supported project implemented by Department of Health and Family Welfare (DoH&FW) of Tamil Nadu Government on Program for Results (P for R) basis. The program claims at achieving SDG 3 target by ensuring health lives and promising wellbeing for all at all ages in Tamil Nadu. The total budget of the program is 287 million US\$ over a period of 5 years which will supplement the overall budget of Government of Tamil Nadu in health department of 4,990 million US\$ in next 5 years to achieve the results. The loan agreement was signed on 04.06.2019 and the effectiveness date is declared as 29.07.2019. The Administrative Sanction of the project was accorded in the Government Order first read above. The Goal of the Project is to improve quality of care, strengthen management of non-communicable diseases and injuries, and reduce inequities in reproductive and child health services in Tamil Nadu. The project is being implemented and the first-year activity carried out from July 2019 to March 2020. In first year, all the disbursement linked results were

achieved and disbursement claimed to the World Bank of USD 5,20,23,500 and the budget allotted for the first year activity was sanctioned in the Government Order second read above.

2. The Project Director, Tamil Nadu Health System Reform Program has forwarded the proposal approved by the State Empowered Committee headed by the Chief Secretary towards implementation of the second year activities of Tamil Nadu Health System Reform Program for Strengthening the Usage of Modern Contraception Method as detailed below:-

The Contraceptive Prevalence Rate (CPR) among currently married women age 15-49, at 53 percent, shows a sharp decline from 61 percent in NFHS-3. Modern method use, at 53 percent, has also decreased from its level in NFHS-3 (60%). Notably, the share of female sterilization in contraceptive method use has risen somewhat from 90 percent in NFHS-3 to 93 percent in NFHS-4. Contraceptive use in NFHS-4 increases sharply with age from 6 percent for women age 15-19 to 63 percent for women age 40-49. The aim is to increase the modern contraceptive prevalence rate from baseline 36.5% to 41.5% in third year and 43.5% in 5th year and to achieve this he has proposed the following:-

- i. With the above background, It is proposed that RMNCH – A counselors training on Family Planning card regarding Modern Contraceptive
- ii. Mobile Family Welfare services for strengthening family planning services.
- iii. Region-wise review meeting to be conducted every fortnight exclusively for family planning services.
