3. Now, the Mission Director, National Health Mission has stated that, the Integrated Centre for Hemophilia and Haemoglobinopathies in Government Dharmapuri Medical College Hospital functioning under the Paediatric Department has grown in leaps and bounds in the past two years as a treatment centre where the Haemoglobinopathy patients are regularly transfused once in a month. 5. The Mission Director, National Health Mission has also stated that, the Dean, Government Dharmapuri Medical College Hospital had expressed the need for constructing a separate building for Integrated Centre for Hemophilia and Haemoglobinopathies in the District Early Intervention Centers complex as it is difficult to accommodate these children and adults in the existing space in the current children's ward.
